## Profile

I am a computer science student, I am interested in developing mobile-based applications, especially front-end development and UI/UX. Even though I currently work as a video editor and designer, it is my expertise in video editing and designer that makes me more motivated in developing mobile applications. I am responsible, creative, and capable of working both individually and in a team.

## Experience

### Graphic Design & Content Planner · Intersys Optima Nusantara

Feb 2022 - Nov 2022

I work at Intersys Optima Nusantara as a graphic designer and content planner. I collaborate with the marketing division to create quality content for the company. My responsibilities include:

- Creating content planning and schedules for social media Instagram uploads.
- Developing company presentation videos.
- Designing graphics such as Instagram feed, business cards, company profiles, and brochures.
- Creating website prototypes using Figma.

In my role, I aim to deliver visually captivating and engaging content that aligns with the company's objectives and enhances its brand image.

### Freelance Video Editor & Graphic Design · AnakTeknikIndo

Oct 2020 - July 2023

I work at AnakTeknikIndo as a freelance video editor and graphic designer, collaborating with over 10 freelance creators to produce high-quality content. Edited more than 60 videos with the highest views of more than 400k views on IGTV, and on YouTube with a total of more than 10k views. My tasks include:

- Creating essay and documentary videos on various engineering-related topics for YouTube.
- Developing videos for IGTV and Reels that cover the latest engineering news.
- Designing thumbnails for YouTube videos and Reels to attract viewers and convey the content effectively.

As a freelance video editor and graphic designer, I strive to deliver visually appealing and informative content that resonates with the audience and promotes the field of engineering.

### Graphics Design · Elite Pro Solusindo

Feb 2020 - Apr 2020

During my internship at Elite Pro Solusindo, as part of the graduation requirements for my school, I had a 2-3 months working period with the following responsibilities:

- Creating WordPress layouts for individual real estate agents to enhance their online presence.
- Performing edits and improvements on property displays to make them more appealing to potential clients.

## Education

### Vocational High School - Multimedia

2018 - 2021 · Mutiara Bangsa School, Tangerang

### Undergraduate - School of Computer Science

2021 - 2025 · Bina Nusantara University, Tangerang
